

Project LIFE™ is a comprehensive, multi-year transition program continuum in which students develop, practice and strengthen their skills that are high predictors of increased adult independence and successful, integrated community employment.

The Project LIFE™ program:

- ◆ Meets the definition outlined in the Individuals with Disabilities Education Act (IDEA)
- ◆ Offers a comprehensive data report to track student progress
- ◆ Utilizes evidence-based practices
- ◆ Documents positive employment outcomes

For additional information regarding Project LIFE™ contact Brittany Metzger at 419-294-4901 or Metzger@angeline.com

Project LIFE™ was made possible in part through a grant provided by the Mitsubishi Electric America Foundation, empowering youth with disabilities to lead productive lives.

Education. Experience. Life Skills.

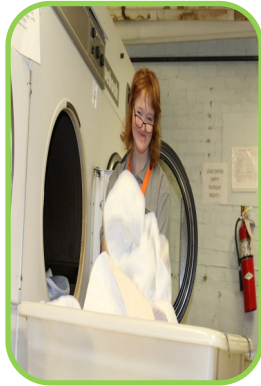

Learn. Earn. Live. Connect.

Classroom Instruction focuses on developing skills needed for greater adult independence and community employment using the courses of study:

- ▶ Independent Living
- ▶ Team Building
- ▶ Personal Financial Literacy
- ▶ Self-Advocacy
- ▶ Functional Independence in the Community
- ▶ Employability
- ▶ Social Communication

By building community partnerships with businesses, interns are able to strengthen their skill set and secure potential employment opportunities for increased independent living.

Community Based Work Experience allows students the opportunity to increase and improve:

- ◆ Independence
- ◆ Self-Determination
- ◆ Social and Communication Skills
- ◆ Community Integration
- ◆ Competitive Employment
- ◆ Relevant Life Skills

Project LIFE™ is impacting lives across the nation. Designed by a team of special education and rehabilitation professionals and parent mentors, this proven program is 12 years strong and being replicated nationwide.
