

PROJECT LIFE

THE OFFICIAL NEWSLETTER OF PROJECT LIFE-WYANDOT COUNTY

Project LIFE was excited to partner with our local heroes from the police, fire, and EMS to talk about online and real-world safety. Participants learned how to stay safe online, when to call 911, what information to share in an emergency, and how to prevent everyday hazards. We are so thankful for this partnership and the opportunity to host such an empowering event. Thank you to USPD, Wyandot EMS, and USFD for being a part of this.

IN THIS ISSUE:

Project LIFE is a program for young people transitioning to adulthood. Project LIFE is operated by Wyandot County DD.

EVERY VOICE. EVERY ABILITY. EVERY OPPORTUNITY.

Rayne, Peyton, and Frankie visited the Smart House at the Blanchard Valley Center in Findlay. During a hands-on scavenger hunt tour, they explored a variety of smart devices designed to support independent living. From automated home features to helpful daily-living tools, the interns discovered many practical technologies that could empower them to live more independently in their future. It was a visit that sparked new ideas and confidence for what is possible.

The interns headed out on a quest to the Dollar Tree in Carey for a career exploration. Rayne, Peyton, and Frankie got a behind-the-scenes tour, learning what employees do each day to keep the store running. Where big smiles and small prices meet big career potential.

The interns were spreading the Valentine's cheer by serving up delicious heart-shaped sugar cookies to staff and their families. Valentine's Day is all about sharing the love-and our interns made sure to sprinkle it right back to everyone who shows them so much support.

The interns wrapped up their time at Kimmel Corp with the satisfaction of a perfectly folded finish- dry cleaning sorted, laundry mastered, and not a single towel left behind. We're incredibly grateful for Kimmel Corp's partnership and support, and we can't wait to see what the future holds as we continue growing together!

"CLOUDY WITH A CHANCE OF.. FRANKIE!?"

Frankie's love for the weather shines brighter than a sunny forecast- he's basically our own in-house weatherman, always ready to tell us what's blowing in next, and somehow he's never wrong. Whether it's sunshine, snow, or a storm brewing, he's got a fact, a smile, and usually a pun to match. And when it comes to the the big stuff- tornadoes and hurricanes- his excitement reaches full Category 5" levels. With Frankie around, the forecast is always 100% chance of energy.
