What's Up Wyandot

WYBDD Renovations Making Progress

We are making exciting progress on renovations at the Wyandot County Board of Developmental Disabilities.

With the school year underway, we are working to wrap up several construction projects that will improve safety, functionality, and comfort throughout our building. We have been working with CSI and ACI.

One of the major projects has focused on updating our student drop-off area and entryway. These improvements are designed to increase safety for our students and families as they arrive and leave the building each day, creating a safer and more welcoming entrance to our school.

We have also updated our front offices and receptionist area, creating a refreshed and more functional space for welcoming students, families, and visitors.

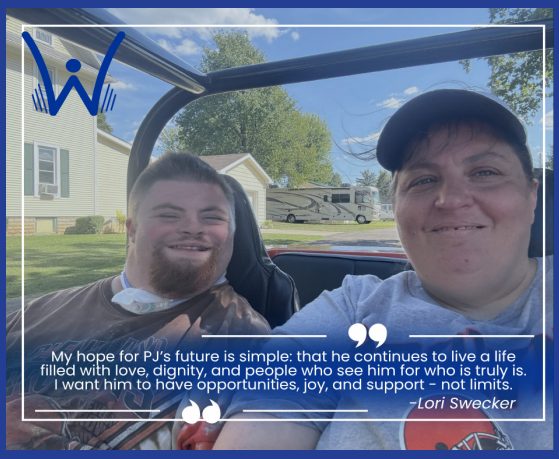
In the back of the building, the space that previously housed Angeline Industries has been renovated to include a new training center. This space will be used for staff training, as well as community outreach events and trainings, providing us with a dedicated area to bring staff, families, community partners, and others together.

Our staff have also gained office spaces designed to provide greater confidentiality and privacy. The new spaces will also allow staff to participate in online trainings and meetings directly from their offices rather than needing to share spaces.

We are so excited about how these renovations are coming together and the opportunities these updated spaces will provide. Most importantly, these improvements will help create an environment where our students can feel safer and more comfortable while also providing our staff and community with spaces that better meet their needs.

Stay tuned to our Facebook page about a fall open house, where we'll invite our community to see the renovations and take a look at our updated spaces.

PARENT MENTOR NETWORK



We're excited to be underway with our Parent Mentor Network! This quarterly group brings parents and mentors together through shared experiences, peer support, and connections. Each gathering features a community partner and parent speaker, along with opportunities to learn about local resources, shared experiences, and connect with our families.

Whether you are looking for support, resources, or simply a chance to meet other parents and mentors. we'd love to have you join us in-person or virtually on Zoom! Stay tuned to our Facebook page for more information or email Sydney Caskey at *scaskey@wycbdd.org*.

Welcome New Staff!

Meet our new staff who have recently joined our team:

- Misty Parkins, Service & Support Administrator
- Andrea Schneider, Speech Therapist, NCOESC

Misty Parkins

Andrea Schneider

And we'd like to give a warm welcome to our new Project LIFE interns:

Hayle Barth

Jessica Chamberlain

Brooklen Cramner

Stay Tuned

National Disability Employment Awareness Month (NDEAM):

Stay tuned to our Facebook and YouTube pages during the month of October, as we feature stories on Peyton at MARCO and Matt at Bob Evans!
